

GREENTEK™

CUT™ D GRIP FC

C-3270GT

THE GLOVE YOU NEED IN WET CONDITIONS WHILE OFFERING EXCELLENT CUT RESISTANCE AND GRIP

The NXG™ Grip FC range offers tailored grip options for various tasks, utilizing innovative, in-house developed materials. By prioritizing glove ergonomics, NXG™ reduces hand fatigue by minimizing grip force. This includes optimizing glove shape, fit, weight, and flexibility, ensuring enhanced safety, productivity, and performance.

FEATURES

- + Uses recycled material
- + SuperGrip™ heavy duty nitrile coating for maximum liquid/ oil resistant grip and resistance
- + Cut level D
- + Contact heat rated
- + Certified to Oeko-Tex® Made In Green
- + Sizes 7 to 11

PERFORMANCE STANDARDS

CUT RESISTANCE RATING ACCORDING TO NEW EN388: 2016 STANDARD

	○	○	○	○	●	○	○
CUT LEVEL	X	A	B	C	D	E	F
FORCE TO CUT	≥ 15N (1529g) < 22N (2243g)						
CUT RISK ASSESSMENT	Medium/ High						

TECHNOLOGIES

GREENTEK™

SAME PROTECTION, NOW SUSTAINABLE

The NXG GreenTek™ sustainable glove range is manufactured using recycled yarn, helping reduce waste and environmental impact. Each pair repurposes one to two plastic bottles, diverting them from landfill and giving them a second life. By choosing GreenTek™, you're supporting sustainability without compromising on performance, comfort, or durability — a smart choice for both safety and the planet. And importantly, the use of recycled materials also helps reduce carbon emissions compared to traditional gloves made with virgin fibres.

PRODUCT DISCLAIMER: Gloves that provide cut resistance are not cut-proof. The risk for these sorts of injuries will not be completely eliminated or prevented by the use of gloves. Cut resistant gloves are not intended to provide protection against powered rotated blades or equipment, serrated or other sharp or rotating equipment. It is the responsibility of companies and/ or glove users to perform their own testing to determine the suitability for a particular application or use within the environment the gloves are to be used. Safety Mate Pty Ltd may revise this information as new information, knowledge or experience becomes available. EN407 tests are performed on the palm part of gloves only.

NXG™ GLOVE RANGE ACHIEVES OEKO-TEX® MADE IN GREEN CERTIFICATION

The Made IN GREEN by Oeko-Tex® label symbolizes a commitment to sustainable production, offering a unified mark that signifies environmentally friendly manufacturing, social responsibility, safe work environments, and materials free from harmful substances. This label ensures consumers that their products come from facilities that prioritize ecological and ethical standards.

**MADE IN
GREEN**

Key features of the MADE IN GREEN label include:

- › Environmental and Social Integrity: Products bearing the MADE IN GREEN label are produced in facilities that embrace eco-friendly practices and uphold the highest standards of social responsibility and workplace safety.
- › Safety and Transparency: It guarantees that the materials used have undergone rigorous testing for harmful substances, offering peace of mind to consumers.

Criteria for the MADE IN GREEN label:

- › Products must be certified as free from harmful substances.
- › Production facilities must achieve certification under STeP by OEKO-TEX®, ensuring sustainable and ethical manufacturing processes.
- › The materials must come from certified sources.

Benefits of the MADE IN GREEN label:

- › **Enhanced Transparency:** Offers a clear way to communicate a company's commitment to responsible practices to consumers.
- › **Environmental and Social Responsibility:** STeP certification of production facilities ensures eco-friendly and ethical manufacturing, helping companies to easily share their commitment with stakeholders.
- › **Economic Advantages:** Ensures sustainability and social responsibility, which can lead to more efficient production processes, cost savings, and a stronger position in the global market.
- › **Consumer Protection and Compliance:** Certifying products according to STANDARD 100 or LEATHER STANDARD by OEKO-TEX® ensures legal compliance and offers effective consumer protection.

In summary, the Made in GREEN label by OEKO-TEX® is not just a mark of quality and safety; it's a testament to a brand's commitment to sustainability, ethical production, and transparency, offering tangible benefits to both the planet and the bottom line.

* More info on STeP

Environmentally friendly facilities

Monitored for the responsible handling of chemicals and resources as well as using environmentally friendly production technology

Using materials tested for harmful substances

Harmless to health, checked by rigorous testing performed in one of the OEKO-TEX® member institutes' laboratories

Socially responsible and safe workplaces

In verifiably fair working conditions without child or forced labour
