

EWRX810

Rapper

CLEAR LENS

Features

- ▲ Certified medium impact rated protection to AS/NZS 1337.1:2010
- ▲ Economy safety spectacle
- ▲ Hard coat for scratch resistance and dirt build up
- ▲ Durable and resilient polycarbonate lens and sidearm build
- ▲ Base 8 curve provides excellent optical clarity and an extended wrap for increased side protection
- ▲ Private branding option - Can be pad printed with own logo on side arms (min qty and lead times apply)

Standards & Certification

Force360 recognise that without product certification by a Notified Body all product performance testing, and adherence to standards claims cannot be independently verified.

If they are not as claimed, serious safety implications for the wearer, and legal implications for the supplier and even the employer may arise.

Force360 source the Rapper from a single manufacturing partner to ensure consistency and reliability of product, but most importantly Force360 have taken the further step of engaging a globally recognised Notified Body to audit and certify both the manufacturing process and the products.

All of Force360's eye protection is certified to the latest AS/NZS eye protection standards.

Specifications

Part No.	EWRX810
Lens Colour	Clear Lens
VLT Rating	89%
Lens Shade Category	0

Packaging

1 12 300

Key Technologies

Medium Impact

Certified medium impact rated protection to AS/NZS 1337.1:2010.

Hard Coat

Force360's Hard Coat is scratch resistant and resists acid and solvent degradation.

Radiation Guide

UVA/UVB 280-380nm	UV light rays from the sun are invisible to the eye yet can cause serious damage including corneal blistering, cataracts, premature aging, conjunctivitis and partial blindness
Visible Light 380-780nm	Intense visual bright light can cause retina damage and create visual perception issues
Blue Light 380-500nm	Blue light rays from the sun or artificial lighting like neons, cause eye strain and fatigue. Colours and definition can be adversely affected. In extreme cases blindness can occur
Infra Red Light 780-1400nm	Infra Red rays from the sun or mechanically heat generating applications like gas welding can cause eye dryness and corneal damage, macular degeneration and blindness
