- + Excellent fit, dexterity and performance
- + Paper vend packed (not plastic)
- + Oeko-Tex® 100, Sanitized® and dermatologically accredited
- + Certified carbon neutral by SGS
- + Sizes 6 to 12

### PERFORMANCE STANDARDS

**Why BSI Certification:** By certifying with BSI, Safety Mate demonstrates to users of our products, that they not only use industry-respected best practices but also choose to work with the organization that developed many of these standards. As a highly trusted global regulator, BSI tests products against industry recognised standards. In a world where safety is of paramount importance, BSI and its logo offer additional value and guarantees that products have been expertly tested to market-leading standards of quality, safety and durability.

### TECHNOLOGIES

**PRODUCT DISCLAIMER:** Gloves that provide cut resistance are not cut-proof. The risk for these sorts of injuries will not be completely eliminated or prevented by the use of gloves. Cut resistant gloves are not intended to provide protection against powered rotated blades or equipment, serrated or other sharp or rotating equipment. It is the responsibility of companies and/or glove users to perform their own testing to determine the suitability for a particular application or use within the environment the gloves are to be used. Safety Mate Pty Ltd may revise this information as new information, knowledge or experience becomes available. EN407 tests are performed on the palm part of gloves only.

# GREENTEK™

SAME PROTECTION, NOW SUSTAINABLE

Safety Mate's latest innovation is the new NXG GreenTek™ environmentally conscious range of gloves which are manufactured using up to 50% recycled yarn. Every pair of GreenTek™ gloves repurposes one to two landfill-bound plastic bottles.

Manufacturing the yarn alternative re-uses plastic destined for landfill. The NXG GreenTek™ Recycled range of gloves contain up to **50% RECYCLED** content with no compromise to safety, comfort or value.

## CERTIFIED CARBON NEUTRAL BY SGS

The GreenTek™ glove range has been certified as carbon neutral by SGS, a testament to dedication to their sustainability. Certified under PAS 2060:2014, these gloves meet stringent requirements for achieving and maintaining carbon neutrality. This recognition underscores Safety Mate's commitment to environmental stewardship and offers their customers a responsible choice. It is important that products not only meet the highest standards of protection and comfort but also positively impact the environment.

## NXG™ GLOVE RANGE ACHIEVES OEKO-TEX® MADE IN GREEN CERTIFICATION

The Made IN GREEN by Oeko-Tex® label symbolizes a commitment to sustainable production, offering a unified mark that signifies environmentally friendly manufacturing, social responsibility, safe work environments, and materials free from harmful substances. This label ensures consumers that their products come from facilities that prioritize ecological and ethical standards.

### Environmentally friendly facilities

Monitored for the responsible handling of chemicals and resources as well as using environmentally friendly production technology

### Using materials tested for harmful substances

Harmless to health, checked by rigorous testing performed in one of the OEKO-TEX® member institutes' laboratories

### Socially responsible and safe workplaces

In verifiably fair working conditions without child or forced labour

Gloves that help the environment without compromising performance.
